

## Worksheet 1

1. When 45 is divided by 9 by repeated subtraction, how many times do we subtract 9 repeatedly?
2. If 30 toffees are distributed in groups of 3, how many toffees will each group get?
3. If 28 biscuits are shared equally among 4 groups, how many biscuits will each group get?
4. Use long division method to solve  $639 \div 3$ . Also, write the dividend, divisor, quotient and remainder.
5. Use the long division method to solve  $429 \div 7$ . Also, write the quotient and the remainder.
6. 30 items are arranged in groups of 5. Write the multiplication and the related division facts.
7. Write the related multiplication fact for the division problem:  $36 \div 9 = 4$ .
8. Write 2 division facts for the multiplication fact:  $5 \times 8 = 40$ .
9. Solve by short division method:  $60 \div 7$ .
10. Sunita called her classmates for a tea party. She baked biscuits at home. She can place 8 biscuits at a time on the baking tray. How many times will she fill the tray to bake 200 biscuits?

## Worksheet 2

1. When 54 is divided by 6 by repeated subtraction, how many times do we subtract 6 repeatedly?
2. If 36 sticks are distributed in 12 groups, how many sticks will each group get?
3. If 48 bananas are shared equally among 8 groups, how many bananas will each group get?
4. Divide and check  $428 \div 6$ .
5. If divisor = 4, quotient = 8, remainder = 3, find the dividend.
6. If dividend = 49, divisor = 6, find the quotient and the remainder.
7. Rekha baked 50 cupcakes and packed them in boxes with 3 cupcakes in each box. If 2 cupcakes were left, how many boxes were packed?
8. Form a correct division sum using the numbers given below. Write the dividend, divisor, quotient and remainder, and verify the rule.  
653, 6, 108, 5
9. Use the long division method to solve  $203 \div 8$ . Also, write the quotient and the remainder.
10. A bus can accommodate 90 passengers. If there are 5 seats in each row in the bus, how many rows of seats are there in the bus?

## Answers to Worksheet 1

1. 5 times
2. 10 toffees
3. 7 biscuits
4. Dividend = 639; divisor = 3; quotient = 213, remainder = 0
5. Quotient = 61, remainder = 2
6. Multiplication fact :  $6 \times 5 = 30$  ; Division fact :  $30 \div 5 = 6$
7.  $4 \times 9 = 36$
8.  $40 \div 5 = 8$  and  $40 \div 8 = 5$
9. Quotient = 8, remainder = 4
10. 25 times

## Answers to Worksheet 2

1. 9 times
2. 3 sticks
3. 6 bananas
4. Quotient = 71, remainder = 2
5. 35
6. Quotient = 8, remainder = 1
7. 16 boxes
8. Dividend = 653; Divisor = 6; Quotient = 108 ; Remainder = 5
9. Quotient = 25, remainder = 3
10. 18 rows
